

ACTIVGRIP 569 NITRILE DOUBLE FULL DIP GLOVE

AG569

Towa ActivGrip AG569, maximum all-round performance in slippery-grip and non-hazardous chemical applications

Nitrile double full dip with MICROFINISH™

Excellent combination of strength and dexterity

High performance in both dry and wet conditions

Towa's patented MICROFINISH™ palm coating offers the best grip in the industry!

Coating: double layer nitrile gives 360 degree protection

13-gauge nylon liner

Sizes 8-11

PERFORMANCE FEATURES

Fully Coated Backhand & Fingers

- + In addition to the palm, AG569 is fully coated on back of hand and fingers for better protection against multiple hazards—soil, dirt and oil.

Oil Resistant Grip

- + ActivGrip™ AG569 is coated with a double layer nitrile formula, allowing more resistance against liquid penetration while keeping its unparalleled grip with MicroFinish®

Grip Performance

- + With Towa's original MicroFinish® technology the AG569 promises the best grip in the market in both dry and oily situations. With MicroFinish®, the user requires less force to hold objects, resulting in less fatigue on the hands.

Comfort

- + Towa's ergonomic custom-designed form used to mould the AG569 assures maximum comfort and minimum hand fatigue.
